Profile Summary

Experienced Developer well-versed in the MERN stack and traditional technologies. Expertise in crafting responsive UIs, proficient in managing state with Redux, and adept at developing RESTful APIs. Demonstrated ability in enhancing application features, prioritizing security, and fostering collaborative teamwork to deliver impactful solutions.

Education

Bsc, 2024

Arunodaya
University

Diploma, 2020

Bharati Vidyapeeth Institute Of Technology (Polytechnic)

Work Experience

Aug 2024 - Present

Mern Stack Developer
EnergiSpeak Analytics

- As a MERN Full Stack Developer, I will design, develop, and maintain web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- My responsibilities include creating responsive user interfaces with React.js, managing application state with Redux or Context API, and integrating front-end components with back-end services.
- On the back-end, I will design and maintain RESTful APIs, manage MongoDB databases, and ensure application security through authentication, authorization, and data validation.

Oct 2023 - Aug 2024

Junior Software Developer
Acumen Congitive Engineering

- In my role as a Junior Software Developer at Acumen Cognitive Engineering, I've built a strong foundation in key technologies such

as React.js, Node.js, Express.js, PostgreSQL, REST APIs, and JavaScript.

- **My responsibilities have included:**
- Designing and developing software solutions to meet client needs.
- Working with different teams to improve application features and user experience.
- These experiences have helped me grow my skills in full-stack web development and prepared me to contribute effectively to various projects.

Internship

6 Months

Book Store

BridgeLabz Solutions

- Developed Employee Payroll Application and Address Book Application with successful outcomes.
- Proficient in developing backend APIs using Spring Boot and frontend applications using ReactJs library.
- Demonstrated expertise in creating responsive UIs using ReactJs and ReacyJs-Material, adept in SQL and proficient in designing navigational structures and search functionality.

Certification

- BridgeLabz Fellowship Program
- Frontend Developer (React) - HackerRank
- JavaScript Algorithms and Data Structures (Beta) - freeCodeCamp
- JavaScript (Intermediate) - HackerRank
- MERN Stack - Great Learning
- MERN full-stack web development course (lifetime + certificate) - 30DaysCoding
